Conflicts of interest will be handled by the following means. (Please check all that apply and provide further explanation.)

____ Alter financial relationships – An individual may change his/her relationships with commercial interests.

____ Alter control over content – a) Choose someone else to control that part of the content, b) Change the focus of the CME activity, c) Change the content of the person’s assignment, d) Limit the content to a report without recommendations and or, e) Limit the sources for recommendations.
Comments: _______________________________________________________
_________________________________________________________________

X Attestation – Person who indicates the existence of such relationships will be asked to agree in writing that said conflicts or relationships will not bias or otherwise influence their involvement in the CME activity e.g. WFUSM Full Disclosure Statement.
Comments: _______________________________________________________
_________________________________________________________________

____ Evaluation – Attendees will be queried regarding their impressions concerning bias within the activity.
Comments: _______________________________________________________
_________________________________________________________________

X Peer Evaluation – An informed learner or peer will be present, to the fullest extent possible, at the CME activity. This evaluator will be asked to complete a formal, detailed evaluation to measure any bias in the activity.
Comments: _______________________________________________________
_________________________________________________________________

X Independent Content Validation – 1) Content will be valid and aligned with the interests of the public. 2) All recommendations involving clinical medicine are based on best available evidence. 3) All scientific research referred to, reported, or used in the CME activity in support or as justification of patient care recommendations conforms to the generally accepted standards of experimental design, data collection, and analysis.
Comments: _______________________________________________________
_________________________________________________________________

X Elimination – Activity Directors, planning committee members and/or teachers authors who are perceived as either manifesting conflicts of interest or being biased may be eliminated from consideration as resources in subsequent certified CME activities.
Comments: _______________________________________________________
Additional Comments: There are formal mechanisms in place for evaluation and for peer review of presented material.
