CREDIT STATEMENT

The Wake Forest University School of Medicine designates this educational activity for a maximum of 22.25 AMA PRA Category 1 Credit(s)TM.

Physicians should only claim credit commensurate with the extent of their participation in the activity.

JOINTLY SPONSORED STATEMENT

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of Wake Forest University School of Medicine and the CIPP.

The Wake Forest University School of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

ACCREDITATION STATEMENT

This activity is jointly sponsored by Wake Forest University School of Medicine and the CIPP.
The Organizing Committee has established an Award program to promote attendance of young investigators to the CIPP meetings. Eligible candidate: graduate students, residents and fellows, young faculty under 40.

Notification to the 16 Finalists for the Award have been made on December 1, 2007. Six awardees will be selected based on the scientific merit of abstracts submitted to the Abstract Selection Committee. The prizes (1500 US $) will be awarded at the CIPP VIII meeting in Nice, during the Award Ceremony.

Dear Friends,

I should like to invite you to CIPP VIII, devoted to all aspects of respiratory diseases in children. This year we celebrate the place of our origin, Nice, by returning for our 8th meeting.

The meeting is truly international – in Montreal, we had speakers from countries from all over the world, and over 1000 delegates came from 78 countries. In these days of international travel, we all need to know what is happening all over the world, not just in our own back yard. Furthermore, new diseases, and new complications of old diseases, are proving ever more taxing. Our young investigators are producing cutting edge research, keeping the seniors on their toes to try to stay a jump ahead – and research will be reflected in our meeting as before. So I have three specific invitations for everyone reading this.

The first: Put the date in your diary, and register early and take advantage of the Early Bird registration discount.

The second: Think about your best research, and what your group can present. There will be Young Investigators plenary sessions as before, with great prizes, and also poster sessions and prizes. This is a great opportunity for those starting out on their careers to present their work, have feedback from a large experienced audience, and come away with new ideas and hypotheses to test.

And third: Let us know via the website the topics and speakers you would like us to include. The program committee meets in March 2007, and we need to know what is new and exciting from all over the world – so what is going on in your patch, and who is the best person to tell us about it.

See you in Nice!

Professor Bruce Rubin, the CIPP VIII Past President, is an amateur magician who uses magic to charm and entertain sick children in his care.

He has prepared a short course to teach you the basics of clinical magic. Each registrant will receive a magic kit and training in its use and in presentation of tricks. This interactive session will not teach you to do a magic show. The emphasis is on age-appropriate and clinically relevant magic for an individual patient and their family.

There is a fee of 120 Euros and each session will be limited in size to the first 15 registrants. All registrants must agree to follow the code of ethics of the International Brotherhood of Magicians found at 
http://www.magician.org/CodeOfEthics.htm

Professor Bruce Rubin, the CIPP VIII Past President, is an amateur magician who uses magic to charm and entertain sick children in his care. He has prepared a short course to teach you the basics of clinical magic. Each registrant will receive a magic kit and training in its use and in presentation of tricks. This interactive session will not teach you to do a magic show. The emphasis is on age-appropriate and clinically relevant magic for an individual patient and their family.

There is a fee of 120 Euros and each session will be limited in size to the first 15 registrants. All registrants must agree to follow the code of ethics of the International Brotherhood of Magicians found at http://www.magician.org/CodeOfEthics.htm
