Dear Sir, Madam,

We are writing this letter to request your support of the 21st International Congress on Pediatric Pulmonology - CIPP XXI - that will take place from June 30 to July 3, 2022. We invite you to support this meeting by way of a display booth, support a scientific session, organization of satellite symposia or support of one of the Young Investigator prizes or the poster award, or the proceedings (published as a supplement of Pediatric Pulmonology / Wiley)...

Alternative option would be to support the participation of pediatric pulmonary physicians at all levels to attend this meeting, or having representatives from your own organization register and attend the meeting.

Please see the options outlined in the accompanying material.

In the 20 years of its activity, CIPP has emerged as the single most significant stand-alone international pediatric pulmonology conference, and our recent virtual meeting was able to attract over 700 delegates from around the world. Together with its sister course (International Course on Pediatric Pulmonology – ICPP 16 The Course), it has become the leading platform of exchange of ideas, education, and cross-fertilization of pediatric pulmonologists worldwide.

Despite the attendance record, we remain dependent on industry sponsorship to be able to sustain our excellence. Starting 2011, CIPP became an annual event and at each of our meetings our sponsors will have direct access to this wide panel of the most prominent specialists and researchers in the field of Pediatric Pulmonology.

Please feel free to contact any of us directly if you have any questions regarding this important international meeting, or contact the CIPP XXI secretariat (details below).

Sincerely yours,

The CIPP Founding Fathers:
Dear Industry Partners

On behalf of the Executive Committee and the International Advisory Board of the International Congress of Pediatric Pulmonology (CIPP), it is a huge pleasure and honor to invite you to participate in the forthcoming virtual CIPP XXI Congress planned to be held on the WEB from June 30 to July 3, 2022.

CIPP is unique as it is the only international meeting devoted exclusively to pediatric pulmonary diseases and as such has acquired an excellent reputation among pediatricians, allied health professionals and clinical academics as the premiere forum for sharing advances and updates in all areas of pediatric pulmonology. CIPP therefore offers an excellent forum for interactions between the clinical and academic communities.

Adding to the highly successful congresses over the last two decades, the last CIPP held in June 2021 was attended by 600 doctors, scientists, clinical academics and allied health professionals treating children with a wide range of respiratory diseases from over 70 countries. The congress is truly inclusive of all nations, and the program is designed to be equally inclusive of issues of importance in developed and developing countries.

The CIPP faculty comprises leading specialists and researchers from all parts of the world, bound by the common purpose of improving the health of young children with respiratory diseases. Uniquely, the faculty includes strong participation from low and middle-income countries, offering a rare window of opportunity for the developed and developing world to learn from each other. The format includes detailed postgraduate courses to provide in-depth learning for specific topics and the main congress has plenary sessions, topic symposia, and interactive sessions, including research presentations, poster discussions of abstracts of original research, clinical case discussions, chest imaging and bronchoscopy quiz. Another unique aspect of the congress is a strong focus on the next generation of leaders, with a forum for Young Investigators to present their exciting work in unopposed sessions, and an Award program to promote attendance and active participation of junior researchers.

The program has been expertly finalized by the Scientific Program Committee Co-Chairs, Dr Manuel Soto-Martinez (Costa-Rica) and Dr Elianne Vrijlandt (The Netherlands), with invaluable guidance and input from the Central Organizing Committee and our International Advisory Board. The topics which will be covered include the broad range of pediatric respiratory disorders affecting all children worldwide, such as asthma and respiratory allergies, respiratory infections and their complications, neonatal lung diseases and their outcomes, cystic fibrosis, sleep disorders, critical care and rare lung diseases. The impact of the Covid-19 epidemic in the Pediatric age groups will be discussed in several sessions.

The industry-sponsored symposia and exhibits will offer an opportunity for our industry partners to provide an update and any new information on existing treatments, as well as the novel therapies currently in various stages of development.

The forthcoming CIPP XXI promises to be an exciting CIPP congress and will again attract a large number of participants from the Americas, Europe, Middle East and Asia. We are inviting you to be a partner with CIPP for this unique and exciting meeting. We would be most honored if you are able to join with us.

We greatly look forward to your participation.

Amir Kugelman, MD
President, CIPP XX
ABOUT THE MEETING

The 1st CIPP organized in Nice in 1994 at the initiative of Professors Alain Grimfeld (France) and Jean-Paul Praud (Canada QC) was an enormous success as a new platform that brought together Respiratory specialists and Pediatricians around the emerging specialty common to all concerned, Pediatric Pulmonology.

The organizers of the CIPP had achieved, for the first time, the challenging feat: that of creating a close working relationship between leading specialists in pediatric pulmonology from developed and developing countries around a number of common themes: Asthma and respiratory allergies, respiratory infections and tuberculosis, Cystic Fibrosis and sleep disorders etc...

Over the years, CIPP has acquired a reputable status among prestigious congresses in both Pulmonology and Pediatrics by focusing its attention specifically on the pediatric aspect of respiratory diseases, in keeping with the standards of large international meetings.

Twenty five years later, CIPP XVIII, held in Tokyo was a major international event where physicians treating children with chest diseases came from over 70 countries to attend this meeting.

After having to cancel the CIPPXIX due to the COVID-19 pandemic, CIPPXX was successfully turned into a virtual meeting in June 2021, gathering once again, attendees form all over the world.

We are continuing to build on this international co-operation; speakers will come from all parts of the world, ready to learn and to teach. The twin themes of the meeting will be: ‘What have I got to teach others practicing in a different environment from my own?’ and ‘What have I got to learn from others practicing in an environment different from my own?’ We will come together from the developed and the developing world to learn together for the common purpose of improving on the treatment of our young patients and thus to be better upon our return home.

The 21st CIPP has also endeavored to increase its educational activities

In addition to plenary sessions and topic symposiums, CIPP also offers:

• keynote lectures given by renowned leaders of Pediatric Pulmonology,
• Post-graduate Courses,
• interactive sessions both in conventional format and in Quiz and hands-on forms on the use of the newest and latest technology in bronchoscopy and respiratory imaging,
• interactive clinical case sessions
• satellite symposia sponsored by the Industry under the heading of a renewed partnership.

A prestigious platform offered to young investigators

The young investigator’s forum at the 21st CIPP will gain center place.

The Young Investigator Award will include 3 prizes to young investigators in Pediatric Pulmonology whose work has been selected by an international special jury.

These recipients will be offered the opportunity to present their research in a plenary session.

The remaining works submitted and selected for scientific merit, will be presented in Poster session for the duration of the congress.

The Top 5 Poster Prizes will award the five best posters selected by the same jury.

And the best poster from African countries will receive the Max Klein’s Award and the best posters from Caribbean countries will received the Patrick Robert’s Award.

This broad opening to the world and especially the support of young investigators remains the hallmark of CIPP.
